ACTIVITIES!

ART AND CRAFT! BEAR WEAVING

How we did it:

We used scissors to cut the outline of the bear and coloured the bear in with colour pencils. After we took the coloured strips and put it through the holes in the bear.

We glued the hands to the back of the bear to make it look like its waving.

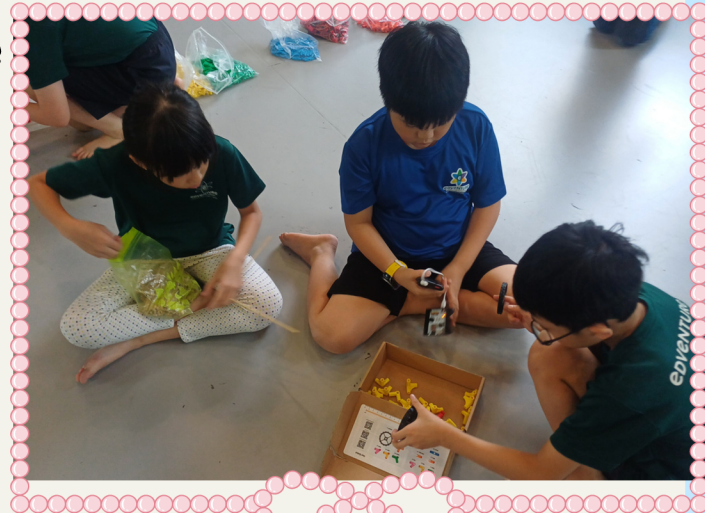

ACTIVITIES!

STICK EM

HOT POTATO CHALLENGE

The younger ones made the base of the robot and the older ones made the machine to push the hot potato to the other opponents side so that the team can win. The aim of this challenge is to have the least amount of triangle on your side.

I'm the hot potato hill!

ACTIVITIES!

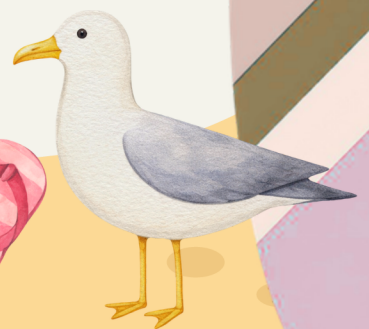

COOKERY HONEY

CORNFLAKES.

How we made them:
We put some cornflakes into our bowl and added honey inside of the bowl and mixed it together. After awhile, when we finished mixing them together, we place them into the cupcake liner and put it in the oven. The next day< we ate them :)
