April Edition

Editors' Message

This month at ELA, our theme was all about the environment!

Through fun, hands-on activities, we explored how to care for the planet. We reused materials like magazines, cardboard and tissue paper rolls in our daily activities. It was a great way to learn about reducing waste while letting our creativity shine!

HAPPY BIRTHDAY

I'm Zachary. My favourite food is chicken rice.

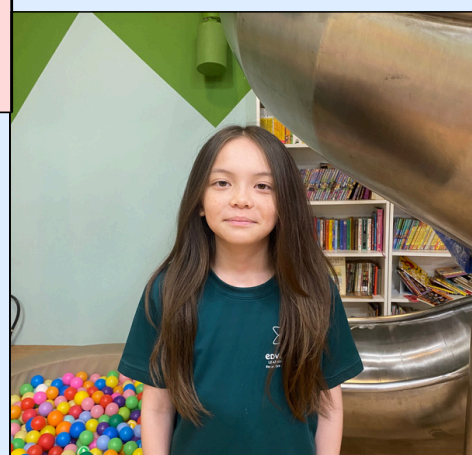

Hi I'm Zhanyi. My favourite colour is purple.

I'm Leonidas. My favourite colour is blue.

I'm Rui Xin. My favourite food is ice cream.

I'm Natalie. I like playing games.

ACTIVITIES

COOKERY Brownie Ball

In this activity, we made brownie balls. We dipped them in cocoa powder and sugar. They tasted like mochi and were chewy. It was a delicious treat for us. It was the best one yet!

ACTIVITIES

STEM CHALLENGE BRIDGE CHALLENGE

In our Bridge Challenge, we worked in teams to design and build bridges. First, we sketched our ideas, then used connectors and sticks to bring them to life. We had to make sure our bridges were strong and steady. It was exciting to see if they could hold up!

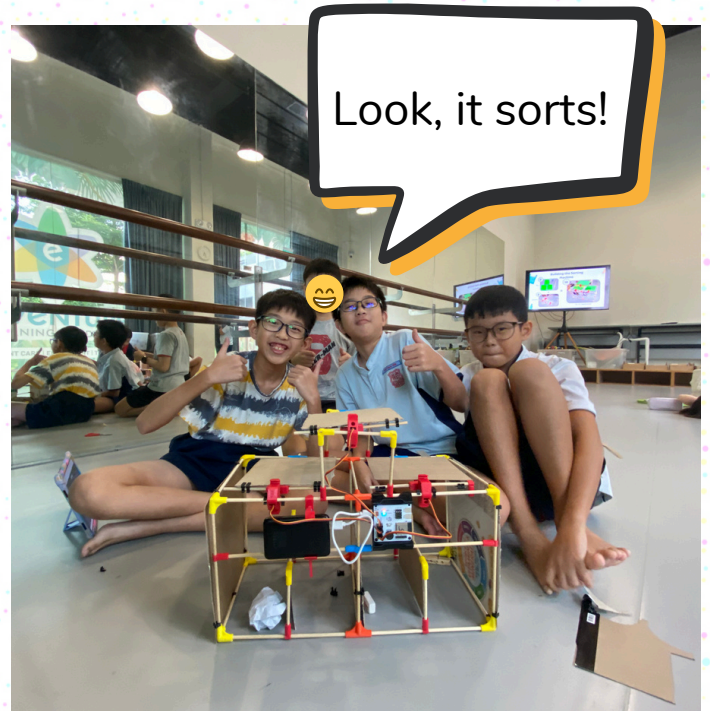

Our bridge is strong and steady!

ACTIVITIES

STICK 'EM SORTING MACHINE

In this challenge, we built a sorting machine to separate different materials. It was challenging but fun! After building the base, we worked together to make the necessary adjustments so it could sort the materials more effectively.

ACTIVITIES

ARTS & CRAFTS OCEAN ANIMAL COLLAGES

We used old magazines to make ocean animal collages! We picked our favourite sea animal, tore up magazine piece and glued them down to create our own artwork. It was so much fun!
