

**MAY & JUNE  
EDITION**

# **ELA'S NEWSLETTER**

## **Editors' Message**

Over the past two months, we embarked on meaningful journeys of discovery and expression. In May, we explored the theme of Emotions, where we learned to understand and express our feelings through hands-on activities. It helped us understand ourselves and our friends better.

In June, we celebrated SG60: Our Heritage, diving into Singapore's rich culture and history. From heritage trails to traditional crafts and local games, we gained a deeper appreciation of the nation's journey and the diverse roots that shape our identity today.

# HAPPY Birthday

Hi I am Rayne. I like Capybara.

Hi I am Tristan. I'm the top of my class in English!

Hi I am Kai En. My favourite colour is blue.

Hi I am Lorah. My favourite colour is white.

# HAPPY Birthday

Hi I am Giselle. My favourite colour is pink.

Hi I am Valerie. My favourite colour is purple.

Hi I am Eden. My favourite colour is grey.

Hi I am Jasmin. My favourite colour is purple.

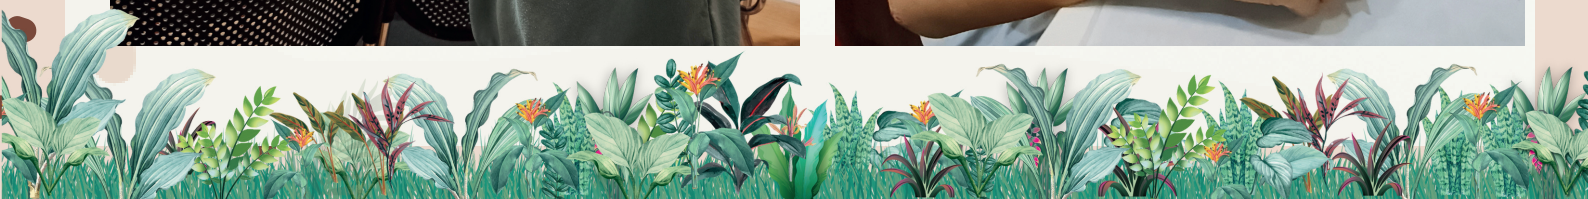

# ACTIVITIES

## STEM CHALLENGE

### NEWTON COLOUR SPINNER

We made spinning colour wheels with bright colours. When we spun them quickly, the colours blended and appeared white or very light. It was so cool to see how all the colours came together to make white light!

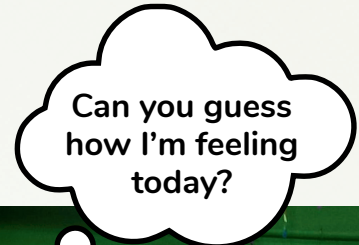

# ACTIVITIES

## ARTS & CRAFTS

### CUP EMOTIONS

We used pre-cut cups to create fun emotion characters! We started by stacking cups, followed by drawing faces, hair, hands and outfits to convey different emotions. It was a fun way to explore emotions through art!

# ACTIVITIES

## COOKERY

### EMOTION BREAD

We made faces using aluminum foil! After shaping eyes and mouths, we baked them on bread to create fun facial imprints. Then we added jam and enjoyed our yummy, creative snacks!

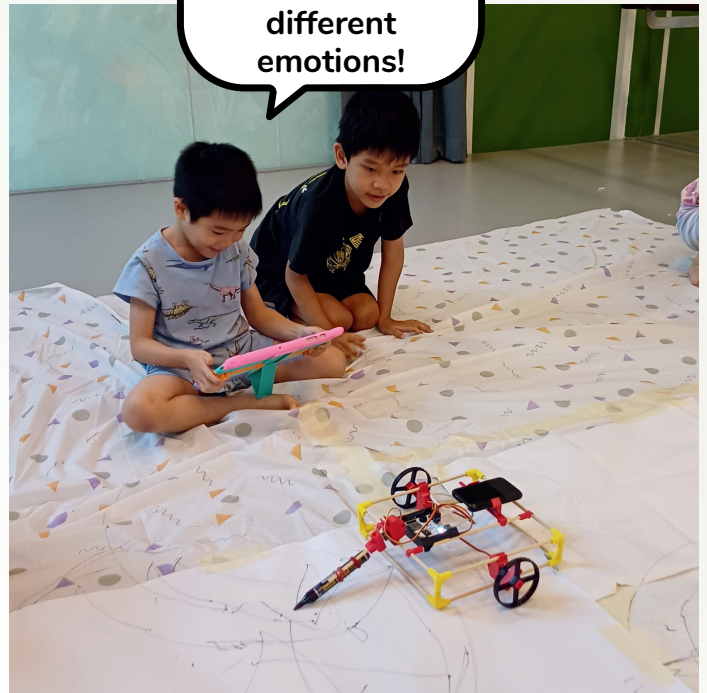

# ACTIVITIES

## STICK 'EM

## DRAWING ROBOT

We built a robot then attached a marker on it. As the robots moved, we drew lines and patterns showing different emotions like happiness, sadness, and excitement, turning movement into expressive artwork!

Watch as I  
doodle  
different  
emotions!

# ACTIVITIES

## Code Monkey

CodeMonkey is an interactive platform that teaches coding through fun, game-based challenges, using languages like Python and CoffeeScript. Designed for beginners, it helps develop problem-solving skills and is widely used in schools and by independent learners.

# ACTIVITIES

## Code Monkey

I enjoy Code Monkey because every task feels like a mini game adventure! - Amelia

I'm excited to do the challenges and see what I can achieve! -Elizabeth

I feel happy because coding made me think and solve challenges. It was fun to figure things out step by step! -Giselle

# ACTIVITIES

## Kidpreneurship

Kidspreneurship empowers young minds globally to become innovators value creators, and problem solvers. Through their engaging edtech platform and structured curriculum, we make entrepreneurship education accessible, affordable and fun.

# ACTIVITIES

## Kidspreneurship

I learned not just to work alone but also to be open-minded and listen to others' ideas. By working together, we created something greater than we ever imagined! - Eden

I learned to create amazing things from scratch and felt happy seeing my ideas come to life. - Zachary

I learned how to be an entrepreneur and be creative. I felt happy doing it. - Jasmin

# JUNE HOLIDAY

## Peranakan Museum & Kampong Glam

We went on an exciting trip to the Peranakan Museum and Kampong Glam! At the museum, we explored colourful artefacts and learned about Peranakan culture and traditions. In Kampong Glam, we saw beautiful shophouses, visited the Sultan Mosque and discovered more about Malay heritage. It was a fun and eye-opening experience!

# JUNE HOLIDAY

## Indian Heritage Centre & Tekka Plaza

The Little India trip was so fun! We walked to a henna shop and got henna done, then had delicious prata for lunch. After eating, we visited the Indian Heritage Centre to learn more about Indian culture and history.

# JUNE HOLIDAY

## Chinatown & Clarke Quay & Merlion

We had an exciting day exploring Chinatown, where we saw traditional shops and learned about Chinese culture. We enjoyed the scenic river views at Clarke Quay and ended the trip with fun photos at the Merlion!

# EVENTS

## PARENTS' DAY

We had the best movie night ever! While our Mummies and Daddies take a break, we ate yummy spaghetti, watched a movie with our friends and had lots of popcorn. It was so much fun!

# EVENTS

## WSBG ASIA SATELLIE EVENT

The WSBG Asia Satellite Event was Asia's first qualifier for the World Series of Board Gaming. Winners of the event earn a spot to compete in the WSBG Championship in Las Vegas. Alvin Tham and Allyssa Frois were the only kids among the adults participating in this competition. Alvin competed in the White Castle and Wingspan tournaments, proudly winning the first round of the White Castle tournament. Allyssa took part in Cascadia and Splendor and emerged victorious in the Phoenix Round, making their achievements even more remarkable among players from across Asia.

# EVENTS

## KIDSPRENEURSHIP MARKET PLACE

It was a hands-on experience where we became young business owners, creating and selling handmade items such as mosaics, keychains, bracelets and crafts while learning creativity, teamwork and business skills.

## Colours of Hope

In celebration of Singapore's 60th birthday, Edventure Learning Academy presents Colours of Hope.

A community colouring event and donation drive in support of children with chronic illnesses through Club Rainbow Singapore.

With a \$6 donation, your child will receive a special SG60-themed colouring template to colour at home or at our centre.

All proceeds go directly to Club Rainbow via Giving.sg.
